DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 11,16,24,36,53 and 54, drawn to fan with diffuser housing, classified in class 415, subclass 220.
 - II. Claims 11,17,41-48 and 55-59, drawn to fan with strip member, classified in class 416, subclass 244R.
 - III. Claims 24,39,40,49-52, drawn to fan with control, classified in class 236, subclass 78R.
 - IV. Claims 1-15, and 18-38, drawn to fan design, classified in class 416, subclass 238.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I,II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as marine propeller. See MPEP § 806.05(d).
3. Inventions I,II,III and IV are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because diameter and twist blade are not required in the combination. The subcombination has separate utility such as blowing fan.

Art Unit: 3744

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for Groups I,II,III is not required for Group IV, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chen-Wen Jiang whose telephone number is (571) 272-4809.
